Golden City claims that the spur which gave name to the railroad is going to build to evansville their tracks at Carthage will join the Memphis road at that place. If that is the case Jasper I glad that it is only a rumor as then it would mislead.

### THE HOME GOLD CURE

An ingenious treatment by which Drunks are being cured daily in Spike, a Tennessee.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liver and Heart.

Two members of the Court of Inquiry have found Admiral Schley wanting on eleven counts but Admiral Dewey gives him credit for the destruction of the Spanish fleet. This leaves the question just about where it was when it began. One suggestion from the court will be met with a popular approval, and that is that the whole matter be dropped.

THE price of fifty cents per pound paid for the champion yearling steer at the live stock exhibition at Chicago, "says the Carthage Press, "should be a great incentive to farmers to raise only thoroughbred stock. Of course all animals cannot be prize winners, but all well-bred cattle will fatten easier and quicker than scrub stock. Even if there is no advance in price per pound there is an increase in weight at a given age, that will make a handsome profit."

### What The Apple Will Do.

The following may have been sent out by the "Apple Trust," but for the benefit of those who are fortunate enough to have a good supply of apples on hand, we give it space:

"A good, ripe, raw apple is one of the easiest vegetable substances for the stomach to deal with, the whole process of its digestion being completed in 85 minutes. Besides the medicinal qualities of the apple, it has great virtue of local applications. The paring of an apple out somewhat thick is an ancient remedy for sore eyes, being tied on at night when the patient goes to bed. In France a common remedy for inflamed eyes is an apple positive, the apple being roasted and its pulp applied over the eyes without any intervening substance."

**Are We a Law-abiding Nation?**  
From the Chicago Record-Herald.

While the cheerful optimist generally has the ear of the majority there is much profit in occasionally pondering the utterances of an intelligent, plain-spoken pessimist. As a nation we think we are all right, despite the warnings of those who see in our constant law-breaking signs of national decadence.

It is just as well to have our national self-satisfaction vigorously jarred by some forceful, earnest thinker who is not running for office or selling stock in a hot-air syndicate, and hence sees no reason for giving everything a rosy hue. This is what Mrs. CLARA HOFFMANN of "dormant" fame did in an address to Evanstonians on Sunday night. Figuratively speaking, she took us by the scuff of the neck and shook us till we rattled in our boots. Here is one of her most pungent perches:

This is not a law-abiding nation. Men disregard law and show their contempt for statute, open and flagrant. If we were a law-abiding people would we have had three Presidents murdered in thirty-six years? If an offense is committed against the law it is a very difficult master to secure a conviction of the offender. Men violate the law and challenge you to convict them. They disregard the law has steadily increased since the civil war, and with it but in far greater proportions, the terrible greed for money.

This cannot be dismissed as the glib effervescence of female orators. It is a serious indictment and one that calls for sober reflection. The thinking man who reads the records of the courts, the daily vanities performances in "temples of justice," and the press pictorial of crime, will stop and ask himself, Are we a law-abiding nation? With three Presidents murdered in thirty-six years and thousands of lesser crimes each year in which the law and the courts are openly defied, are we justified in boasting of our respect for law and morality?

And yet we know that the great mass of the people are decent and law-abiding. If we lose sight of the fact that we are a nation of eighty million people the number of

violations of law seems appalling. But even with the fact of our great population in our minds we will have to concede that we are the least law-abiding of all the civilized nations.

### A WORTHY SUCCESSOR

**Something New Under the Sun.**

All doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drogum paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, however, last perfected a treatment which when faithfully used, not only relieves at once but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation.
